## PROFILE

I am a dedicated leader, passionate communicator, and intuitive manager. I thrive when planning for the future and finding creative ways to solve problems. I believe that collaboration is the key to healthy culture as well as quality products and services. I operate with purpose and intentionality because I believe that directly impacts the efficiency and effectiveness of the outcomes.

I have experience leading and developing people, building strong teams, and setting healthy culture. I have been able to do this through one-on-one coaching and development, team training and teaching, developing systems and strategies that will effect the whole organization. I have done this most successfully in the past 10 years through vocational ministry at three different large churches.

## SKILLS

---

### LEADERSHIP AND COMMUNICATION

10 plus years experience in vision casting, delegation, building rapport, decision-making, public speaking, and general willingness to take on responsibilities. The ability to communicate clearly in difficult situations with empathy, tact, and diplomacy.

### RECRUITING AND DEVELOPMENT

10 plus years experience in attracting talented and committed individuals to join volunteer and staff teams and developing team members into roles of leadership to varying degrees through one-on-one coaching, team training, and delegating tasks.

### COLLABORATION AND CULTURE BUILDING

I have been able to be on teams and lead groups of people of all different ages, ethnicities, and cultures. I have taken the lead on bringing them together to develop vision and complete tasks. I have taken teams and organizations with unhealthy communication and collaboration and helped them build healthy culture through expectation setting and vision casting.

### PROJECT MANAGEMENT AND PROBLEM SOLVING

In the past 10 years I have overseen numerous projects including community events, outreach programs, youth camps, and building renovations. Carrying out each one from conception to realization including budget, shedule, and people management. I have also worked with numerous individuals and families through complex relational issues. I have been able to creatively approach many projects with limited budget or personnel.
